WELCOME TO YOUR NEW KITCHEN

The Kitchen is the most important room in your house, and one of the biggest investments you will ever make into your home.

Professional design, quality products, expert installation & market-leading project management are all vital elements to ensure that your new project looks amazing.

We design, supply & install for busy homeowners who need a simple process without the hassle of vetting tradesmen and managing a project. Arrange a home visit!

Iain Watson
Iain Watson

OUR STORY

IW Kitchens was founded by Iain Watson, an installer with over 25 years of hands-on experience in kitchen installations. Like many in the trade, Iain began his career fitting kitchens for large retailers. However, after repeatedly seeing the common pitfalls and frustrations that customers often face—delays, miscommunication, and inconsistent quality—he knew there had to be a better, more customer-focused way. That's why IW Kitchens was born, committed to providing a superior, stress-free experience. Now, IW Kitchens proudly serves customers in Folkestone and across Kent, offering beautifully fitted kitchens with personalised service that ensures every detail is tailored to your needs from start to finish.

OUR JOURNEY

For over 25 years, IW Kitchens has been dedicated to providing a seamless, customer-focused experience from start to finish. Beginning as a sole trader, Iain had a clear mission: to offer exceptional service at every stage, from the initial survey and design to the professional installation. We recognised a need in the local market for an entirely in-house solution, ensuring you receive the highest level of service with one trusted team guiding you through the entire process. Today, IW Kitchens proudly installs many kitchens each year in Folkestone and the surrounding areas, helping customers like you enjoy a stress-free kitchen project by handling every detail so that you can focus on the exciting result, not the hassle.

SUPPORTING YOU

IW Kitchens will take you through the entire project journey and make planning a kitchen straight forward, stress free and enjoyable.

Let us take the stress and organising pressures off your shoulders, with a single point of contact to guide you through and keep you informed every step of the way. There's no time wasted travelling between showrooms, organising tradespeople and endless catalogue flicking, we bring it all to you

VALUES & MISSION

Your kitchen means as much to us as it does to you. For too long, customers like you have been taken advantage of by big named companies providing substandard design services and products and only care about their bottom line.

We aim to break the cycle of poor experiences within our industry for customers in our local area. Our expert fitters will treat your home with the utmost respect, and by combining that with an industry-leading care package – you can be assured that you will be looked after from start to finish.

PEACE OF MIND

I want to assure you that you can trust us to deliver a great result. Any project can present a challenge no matter how big or small but it is up to us to handle these challenges for you.

Having been responsible for running construction and home improvement projects for many years, I understand how important having an accountable project manager is to achieving the very best client experience.

Listening to and understanding the ideas of my customers and transforming their vision into tangible reality is something that sets us apart from others. Taking an early thought and creating something genuinely special makes my job thoroughly enjoyable.

My team and I have been working together for many years now and we all know what it means to a client when we deliver a successful installation project.

The systems, processes and technology we have invested in to manage our customers projects are industry leading which enables us to deliver a level of service that our customers truly deserve.

You will benefit from a completely digital process that all the detail from the initial design and quotation stage is not lost in the construction and installation phase. You will be presented with designs, plans and images that will truly represent the final outcome and not something dreamt up by a salesperson

I really hope that this demonstrates to you the level of service we strive to achieve and that you can put your trust in us with your project.

Iain Watson

YOUR JOURNEY TO YOUR DREAM KITCHEN

STEP 1: ALL IN THE DETAIL

Step 1 is all about getting the details right. We will meet with you at your home, understand how you intend to use the space and understand everything that is important to you, take down the dimensions, and together do some initial planning.

STEP 2: GUIDE PRICE

Using all the information gathered at our first meeting, we will put together a simple design and calculate a guide price based on the first survey. We will send you a quick video and information pack to explain everything.

STEP 3: DESIGN CONSULTATION AND FINAL QUOTE

Taking your ideas forward from our initial meeting, we will meet with you to finesse your thoughts and to create your plans and images if needed. After we have finalised and confirmed everything that you need we will present your final quote and proposal.

STEP 4: BOOK IN YOUR PROJECT START DATE

Once the quote and costings are confirmed, we will finalise any paperwork and send your proposal for you to agree and sign, then we can get a date in the diary once your deposit has been paid.

The Valore Collection

Crafted with affordability in mind, the Valore Range is a curated collection for those seeking stylish simplicity without compromise.

Designed to offer exceptional value, this limited range includes three timeless styles—**J Pull**, **Slab**, and **Shaker**—each bringing its own character to contemporary kitchen design. Whether you're drawn to the clean minimalism of **Slab**, the integrated profile of **J Pull**, or the classic lines of **Shaker**, Valore offers quality and versatility at a budget-friendly price point.

BASE UNIT WIREWORK

Practical soft close storage solutions for 150mm filler and 300mm wide base unit spaces.

150 BASE PULL OUT:

Available in Dynamic & Elite

300 BASE PULL OUT:

Available in Dynamic & Elite

- Dynamic - chrome wire baskets
- Elite - anthracite wire baskets, solid titanium base

SMART LARDER

5 grey soft close drawers at your fingertips with frosted glass panels for style, strength and quick visibility, larder access has never been easier.

CORNER SOLUTIONS - only available on 450mm & 500mm door options

Corners are often the most problematic area in a kitchen but represent a large space. Choose pull outs or carousels to make use of the space and make your corners an area to be proud of.

MAXIMA

TALL LARDER

LARDER WIREWORK

Housed within larder units, these pull outs create easy access to your essentials, from top to bottom.

MAXIMA PULL OUT:

Opens separately for easy access. Available for 500mm units in Dynamic & Elite and for 600mm units in Dynamic.

TALL LARDER PULL OUT:

Attached to door and opens as one unit. Available for 300mm units in Dynamic and for 400mm units in Dynamic & Elite.

- Dynamic - metallic grey wire baskets
- Elite - anthracite wire baskets, solid titanium base

CORNER PULL OUT:

4 baskets opening as one soft close unit with a generous amount of storage space for your essentials. Available in Dynamic & Elite.

- Dynamic - chrome wire baskets
- Elite - anthracite wire baskets, solid titanium base

COMBI SHELVES:

Pull out shelves opening individually, cleverly designed to open easily whilst making the most of your corner space. Available in Dynamic & Elite.

- Dynamic - chrome rails with grey anti-slip trays
- Elite - titanium rails with anthracite anti-slip trays

CAROUSELS:

Our popular carousels offer easy and affordable access to standard and L-shape corners. Available in chrome.

- Chrome

SINKS

CERAMIC SINKS

APPLIANCES

Talk to us if you need help in choosing your appliances or for practical advice in incorporating appliances into your new kitchen design. Appliances are an integral part of your new kitchen and there's plenty of considerations. Gas or electric, built under oven or integrated in a larger and specific oven functions, are just three of the things that should be on your list.
